Report on group Discussion.

On 9th February 2023 students were interacted, during the discussion it was noticed that every student was hesitant to express their opinion but after interacting with them very openly it was noticed that the students started to interact without fear and the negative attitude among the students started disappearing and every student expressed his/her opinion. The thought was telling in a positive way.

Class: MA I & II

Since the new credit system has been started from the year 2019 and 2020 for MA I & MA II class, 50 Marks University and 50 Marks College are given 100 marks to the students. Out of which varsity marks are left out, the remaining 50 marks consist of seminar, assignment, test, project, trip report and group discussion. During the group discussion, some of the student's abilities are observed by the professor while discussing the given topic. Mainly, the student's behavior in the group, his team attitude, leadership ability, ability to express himself, etc. are included in this.

Group discussion is conducted preferably in groups of 8 to 10 people. Its topic, however, is usually announced at the time of starting the discussion. It tests students' communication skills, interpersonal skills, motivational personality, logical thinking, creativity, perseverance, flexibility, ability to respect others' opinions. Hence group discussion was conducted for both the classes (MA I & MA II) in History department
